November 10, 2022

Dear Professor Gadi Fibich,

While recognizing the other very strong candidates, the committee has decided to award the 2022 Saul Abarbanel Prize to Professor Yoel Shkolnisky of Tel Aviv University for his contributions to applied mathematical and computational studies of signal and image processing, computerized tomography and to the development of new tools in computational harmonic analysis and fast transforms.

With best regards,

Edriss S. Titi

Chair of the 2022 Saul Abarbanel Prize Committee
